

ZİRKON BLOCK

LIVING BLOCK (COMPLEMENTARY MINERAL FEED)

Portagem Zirkon is mineral-vitamin lick block including buffer for dairy and fattening cattle. It may cover mineral and vitamin requirements of dairy and fattening cattle. Portagem Zirkon may improve feed intake, daily gain and milk production under conditions of vitamin and mineral deficiency. Portagem Zirkon prevents pica (such as wall licking soil eating) due to mineral deficiency.

USAGE: Portagem Zirkon could be used to meet mineral requirements of all kinds of ruminants and may supply vitamin A, D and E (e.g. feedlot cattle, dairy cattle, camel, sheep, goat, calf, lamb, kids). It should be supplied as free choice by hanging easily accessible places or putting feeders. It is manufactured especially as durable all environmental conditions and it is not indissoluble and shatterproof.

Ingredients: Sodium Chloride, Magnesium Oxide, Dicalcium Phosphate, Trace mineral Premix.
