

## REPRODUCTION PREMIX for COWS

**INTENDED USE:** PORTACURE COWAGRA contain high amount of vitamin A, D, E and trace elements. These vitamins and trace minerals may improve immune system, health of uterus. Trace mineral play an important role in animal metabolism and reproductive system as cofactors of enzymes. Superoxide dismutase, glutathione reductase, glutathione peroxidase, thioredoxin reductase, ceruloplasmin and catalase are important enzymes that have trace elements as cofactors. Overall, trace elements improve reproductive performance and reproductive health. Additionally Portacure Cowagra contain phytoestrogen and the estrogen-like effects of phytoestrogens and their metabolites may help in resumption of cyclicity and ovulation in post-partum cows, non pregnant and having reproductive problems.

**USAGE:** Cowagra could be given 100 g per head daily for non pregnant dairy cow or heifer. Cowagra mixed 2 Lt water with other supplementary materials. Cowagra should not be used in pregnant and possibly pregnant cows and heifers.

**INGREDIENTS:** 3a672a Vitamin A 1.500.000 IU\* (*Retinol acetate*), 3a671 Vitamin D3 300.000 IU\* (*Cholecalciferol*), 3a700 Vitamin E %3 (*Alpha Tocopherol Acetate %50*), 3a821 Vitamin B1 %4<sup>-2</sup> (*Thiamine %98*), E101 Vitamin B2 %4<sup>-2</sup> (*Riboflavin*), 3a831 Vitamin B6 %4<sup>-2</sup> (*Pyridoxine %98,5*), E5 Mangan %2,5 (*Manganese Sulfate %32*), E6 Çinko %3,75 (*Zinc Sulfate %35*), E8 Selenyum %6<sup>-2</sup> (*Sodium Selenite %45*), E3 Kobalt %3<sup>-2</sup> (*Cobalt Sulfate %20*).  
**Carriers:** Aromatik Bitkiler (*Aromatic Plants*). \*100 gr içerisindeki değerlerdir. (*Ingredients in 100 gr*).

### PACKAGE FORM

100 GR POWDER FORM + 180 GR LIQUID FORM (IN CARTON BOX)
