GROWING CHICKEN OLDER THAN 18 WEEKS OLD VITAMIN MINERAL PREMIX

INTENDED USE:

Special combination of vitamins and trace elements for healthy and resistant chicken and optimum growth and high laying performance. Amino acids (Lysine, Methionine, Threonine) for better protein quality in the diet and better performance. Toxin binder for preventing probable mycotoxicosis and health problems and better performance. Yeast cell wall extract, vitamin E and selenium to strengthen the immune system. Biotin for healthy skin and feathers. Vitamin D and optimum combination of calcium and phosphorus for stable bones and good growth and high egg shell quality. Phytase for better utilization of phosphorous, calcium, amino acids, and trace elements and high egg shell quality. Pigments for better egg yolk color.

USAGE:

It is used by mixing into 25 kg per 1000 kg complete feed for broiler.
