

## ep15/12-18%2,5

### 13-18 WEEKS OLD GROWING CHICKEN VITAMIN MINERAL PREMIX

#### INTENDED USE:

Special combination of vitamins and trace elements for healthy and resistant and optimum growth of growing chicken (pullet). Amino acids (Lysine, Methionine, Threonine) for better protein quality in the diet and better growth. Toxin binder for preventing probable mycotoxicosis and better growth. Yeast cell wall extract, vitamin E and selenium to strengthen the immune system. Biotin for healthy skin and feathers. Vitamin D and optimum combination of calcium and phosphorus for stable bones and good growth. Phytase for better utilization of phosphorous, calcium, amino acids, and trace elements.

#### USAGE:

It is used by mixing into 25 kg per 1000 kg complete feed for broiler.
