

**tibbee**

**VITAMIN, MINERAL AND AMINO ACID COMPLEX FOR BEES**

**INTENDED USE:** It provides the vitamins and minerals requirements of Honey Bees. The health of honey bee colonies is not only defined by the absence of diseases, but also by the presence of many well-nourished individuals capable of producing progeny and resisting stress. Tibbee may supply enough vitamin mineral and amino acids and may improve colony health and survival and increase honey and larvae production.

**USAGE:** It is used by adding 2 g (about 1 teaspoon) to the prepared 1 kg bee cake or 1 L syrup.

**PACKAGE FORM**

125 GR JAR + BOX
