

glicoforce

LIPOTROPIC ESSENTIAL AMINOACIDS SUPPLEMENTED LIVER SUPPORTIVE PREPARATION

INTENDED USE: Dairy cows in peripartum period may suffer "ketosis" and "fatty liver" problems due to unbalanced or malnutrition and/or other factors decreasing feed intake. GLICOFORCE contains lipotropik factors (e.g. Methionine, Choline), glicogenic substaces (e.g. Mono Propylene Glycol, Glycerine). Lipotropic factors may help infiltration of fatty acid from liver and prevent fatty liver and glicogenic material supply glucose and increaase insulin in plasma and decrease fatty acid mobilisation from fat tissues. Improved liver health and plasma glucose level may prevent decrease in feed intake due to ketosis and fatty liver.

USAGE: Freshened - ketotic cow may receive 500 ml per day for 5 days for treatment. It could be used 500 ml per day from 3 day before and 3 day after parturition for prophylactic purpose. Sheep and goat in ketotic may receive 50 ml for 3-5 days for treatment.

INGREDIENTS: 3a672a Vitamin A (*Retinol Asetat*) 400.000 lu/ml. 3a671 Vitamin D3 (*Cholecalciferol*) 100.000 lu/ml. 3a700 Vitamin E %0,16 (*Alfa Tokoferol Asetat*), 3a821 Vitamin B1 % 3×10^{-2} (*Tiamin %98*), 3a314 Vitamin B3 %2 (*Niacine %99*), 3a880 Vitamin B7 % 4×10^{-3} (*D-Biotin %2*), Vitamin B12 % 2×10^{-4} (*Siyanokobalamin %1*), Organik Asitler %1,5 (*Organic Acids*), Bitkisel Ekstraktlar %3,5 (*Herbal Extracts*), Lipotropik Esansiyel Aminoasitler %3 (*Essential Amino Acids*).
CARRIERS: Monopropilen Glikol (*Mono Propylene Glycol*), Gliserin (*Glycerine*).
