INTENSE TOXIN BINDER PREMIX ENRICHED WITH YEAST FOR RUMINANT AND POULTRY

INTENDED USE: It is used to be excreted with feces by binding the toxins in concentrate feed and coarse fodder that used for feeding ruminant animals and poultry. By binding toxins, it protects animals against toxin poisoning. Yield losses due to toxins are prevented. Fortified with MOS (Mannan oligosaccharide and beta glucan) which has a toxin binding feature, this product strengthens the immune system.

USAGE: It is used by being mixed to the daily feed of animals (per animal).

Ruminants (in 1 ton of feed); 3-5kg

Sheep&Goat: 5-15g

Lamb&Kid: 3-5g

Poultry: 3-5kg for 1 ton of feed

Cattle: 20-75g

Calf: 5-15g
