

# portacure crypton

## CRYPTO PASTE FOR PRE-RUMINANTS AND FOALS

**INTENDED USE:** Cryptosporidium parvum is a protozoa which causes watery diarrhea in calves, sometimes causes the same thing for lambs and kids as well. Feces is slimy, and smells bad. Generally, 1-3 weeks old calves, lambs and kids fall ill. PORTACURE CRYPTON, thanks to the probiotics in its content, prohibits the growth of oocytes. Strong herbal extracts increase the strength against crypto protozoa and help keeping disease factors under the pathogenic limit. By reducing the pH of the environment with organic acids, it decreases the population of crypto protozoa and other pathogenic microorganisms.

**USAGE:** During diarrhea, 15 cc should be used every morning and evening, for animals which have crypto (such as; calf, lamb-kid, foal).

### COMPOSITION:

#### Vitamins / Nutritional additives

E160a Vitamin K3 (Synthetic Menadione) 0,5 %; 3a821 Vitamin B1 (Thiamine) 0,2 %; E101 Vitamin B2 (Riboflavin) 0,25 %; 3a314 Vitamin B3 (Niacin) 0,5 %; 3a831 Vitamin B6 (Pyridoxine) 0,2 %

#### Probiotics / Gut Flora Stabilisers / Zootechnical Additives

Bacillus subtilis  $4 \times 10^7$  cfu/g; Enterococcus faecium  $9 \times 10^7$  cfu/g.

#### Phytogetic additives / Sensory additives

Essential Oils

#### Preservatives / Technological additives

E211 Sodium Benzoate, E202 Potassium Sorbate, Organic Acids.

### PACKAGE FORM

30 cc X 24 PIECE (PIECE OF INNER)
