

portacure

REPRODUCTION PREMIX FOR COWS

INTENDED USE: Portacure Cowagra contains high levels of A, D and E vitamins, and trace minerals. The mentioned vitamins and minerals support immune system, improve uterus health, and the trace minerals with the systems that they act as coenzyme (Superoxide dismutase, glutathione reductase, glutathione peroxidase, thioredoxin reductase, ceruloplasmin and catalase) contribute to both reproduction performance and general performance improvement. Besides, Portacure Cowagra contains phytoestrogen. Phytoestrogens with estrogenic effects can contribute to initiation, regeneration and ovulation of menstrual cycle of cows that are not pregnant or cows that can not be pregnant.

USAGE:

For non-pregnant cows and heifers - 100g
Cowagra is given by being mixed in 2L of water with the complementary liquid product accompanying.
It must not be used for the pregnant animals and animals with suspected pregnancy.

COMPOSITION:

Vitamins / Nutritional additives
