## portagem

### LICKING BLOCK (COMPLEMENTARY MINERAL FEED)

**INTENDED USE:** Anafor Block is a special formulated licking block for ruminants of all ages and physiological states, to meet their mineral needs. Anafor Block prevents from pica (habit of eating or licking stone, soil, bone, bag, fabric etc.) that is caused by mineral deficiency. Thanks to the salt content, it may improve water consumption and digestion. Since consumed willingly, mineral needs of animals of all ages and physiological states are met in a balanced way.

**USAGE:** It is used for meeting fattening cattle, milk cow, camel, sheep, goat, calf, lamb and kid's mineral substance needs. It is recommended to be hung where animals can reach, or put in front of animals. Thanks to its special formulation that is resistant against all weather conditions, it never melts, never disperses.
