

MUSTANG HORSE BLOCK

portagem

LICKING BLOCK (COMPLEMENTARY MINERAL FEED)

INTENDED USE: It is a licking block prepared for the animals that belong to horse and equine family, aiming to meet their vitamin and mineral needs. Portagem Mustang Horse Block is a special licking block produced for more performance of riding and racing horses, and healthy development of foals in conditions with lack of vitamins and minerals in the rations. Portagem Mustang Horse Block prevent the animal from Pica (an act of eating stone, soil, bone, bag, fabric etc.). Since it is consumed willingly, mineral needs of animals of all ages and physiological conditions can be met in a balanced way. Thanks to the salt content, it may improve water consumption and digestion.

USAGE: It is used with the aim of meeting the vitamin and mineral substance needs of horse and equine family. It is recommended to be hung where the animals can reach easily, or to be put in front of animals. Thanks to its special formulation which is resistant to all weather conditions, it does not melt or disperse.
