## LIQUID PREMIX COMBINATION ENRICHED WITH VITAMIN, MINERAL AND AMINO ACID FOR TURKEYS AND GESE

### INTENDED USE:

It is a liquid vitamin- mineral and amino acid combination prepared for meeting vitamin- mineral and amino acid needs of turkeys and geese, and make up for the deficiency. It increases profitability by reducing FCR (feed conversion ratio : feed consumed / weight gained). It contributes to the improvement of gizzard(stony place). It allows them to spawn in a short time and to hatch healthy offspring from eggs by having positive effect on reproductive ability of turkeys and geese. It shortens seasonal moulting time. It provides protection and resistance against stress. It ensures the healthy and rapid growth of the offsprings. It is used as supportive for infectious illnesses, vitamin deficiencies, and for increasing egg and meat quality of turkeys and geese.
