PREMIX ENRICHED WITH YEAST, TOXIN BINDER AND AMINO ACID FOR RUMINANTS

INTENDED USE: It is used to meet the essential vitamin and mineral needs of ruminants (cow, heifer, bull, calf, sheep, goat, lamb, kid). When used regularly, the live and inactive yeast in its content helps regulating the intestinal flora. Owing to buffers (Sodium bicarbonate and Magnesium oxide) it is effective in regulating the digestion and rumen pH. It is supportive in toxications caused by coarse fodder and concentrated feed, supportive for fatty liver and in regulating the liver functions. Increases carcass yield and meat quality of fattening animals, increases milk yield and quality of dairy animals. It is effective against the tongue rolling and pica (habit of eating soil and foreign substance). It prevents the problems such as licking wall, eating soil. In this way, it enhances the utilization of the feed.

USAGE: It is used by being mixed to the daily feed of animals.
