E.SELENIUM PLUS

VITAMIN E AND SELENIUM PREMIX ENRICHED WITH AMINO ACID FOR POULTRY AND RUMINANTS

INTENDED USE :

It is used to meet vitamin E and Selenium requirements in poultry and ruminants. Vitamin E and selenium are antioxidants which is necessary for the prevention of tissue damage due to their strong antioxidant capacity. It improves function of reproductive, muscular, circulatory, nervous and immune systems. It supports hatchability and reduces the mortality rate. Selenium and vitamin E content may prevent and/or alleviate of oxidative stress as well. They are also required for normal growth and fertility and improves health status and may decrease retained placenta, metritis and mastitis risk in dairy cows.

Methionine in its content is a sulfur-containing amino acid that is essential for health and productive performance for poultry and It is actively involved in the synthesis of tissue proteins, a number of vitamins, hormones, and enzymes. It may improve liver health together with vitamin E and Se.

USAGE :

It is used by being mixed 100-150 g into 1.000 L of drinking water and 150-300 g into 1.000 kg feed for poultry and 25-75 g into 1.000 L of drinking water and 250-600 g into 1.000 kg feed for ruminants.

Active Ingredients	The Name of Additive	Quantity in Premix	Units
Vitamins / Nutritional Additives			
Vitamin E	Alpha Tocopherol Acetate	100.000	mg/kg
Trace Minerals / Nutritional Additives			
Selenium(Se)	Sodium Selenite	500	mg/kg
Zinc(Zn)	Zinc Sulphate	300	mg/kg
Amino Acids / Nutritional Additives			
Methionine	DL-Methionine	25.000	mg/kg
Antioxidants / Technological Additives			
BHT	Butylated Hydroxytoluene	1.000	mg/kg
Carriers			
Dextrose	Dextrose Monohydrate	qsp	

PACKAGE FORM

1000g METALLIZED BAG

1000g PLASTIC JAR
